

ALUMINIZED/PRIMARY Apparel

Aluminized clothing, "primary apparel", is your first line of protection from molten metal splash and radiant heat. American Safety Clothings' aluminized apparel is designed for maximum protection and is comfortably sized to fit over general work garments. American Safety Clothing, a leader in the "primary clothing" market, can customize any of the styles shown in this catalog for your specialized needs.

Standard Features Include

- Military style collar
- Raglan sleeves for added mobility
- Covered snap or FR Velcro® closure
- Safety stitched w/overlock sewing all seams
- Triple tacked at stress points for longer wear

Optional Features Include

- 2ply Kevlar® or Nomex® wristlets
- Yoke/vent back
- Vented with FR cotton backs for comfort and affordability
- Kick slits for coats 44" and longer
- Lengths 30" - 52"

Custom lengths and features are available

Many of our designs (as pictured above) provide for enhanced breathability and user comfort.
